### Your Advantages

- No delivery times
- Manual exchange = time saving, cost saving, flexibility
- Increase in OEE (Overall Equipment Effectiveness)
- Discount on wear and spare parts
- Important parts in stock, with low stock value

### What are wearing parts?

Components that wear out over time and therefore have to be replaced sooner or later.

### What are spare parts?

Critical components which, if they fail, will no longer be able to operate the system properly.
